Dear Andrzej,

Thank you for your excellent World Cup book that I received recently. The statistics are easily the best I have come across for a book of this type. I only wish I could understand Polish because I am certain that the text is of equally high standard!

After receiving your book, I was able to complete the three "full" names that I was short of for the Dutch East Indies. I was just so amazed that you even had the date of birth for these three players. I had written to the Indonesian FA and the Dutch FA in the past without having any success at all.

In return, perhaps I can do you a favour. When reading your book, I noticed that you are missing the two qualifying results for 1950 between Finland and Sweden (I have many World Cup books and they all overlook these matches because they believe they were not played!).

The results that are missing are;

19.9.48 Finland 2, Sweden 2.
2.10.49 Sweden 8, Finland 1.

This information was supplied to me by Ester Kristiansson of the Svenska Fotbollförbundet in 1988. Unfortunately, I did not ask for the referee or the venue, but perhaps you can find this out for yourself.

My very best wishes to you,
